## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Charles A. Brill on December 10, 2004. The application has been amended as follows:

Please cancel claim 16.

Note: Applicant elected species of Figure 7, claims 17-21 without traverse in paper No. 0904 is acknowledged, because applicant elected without traverse, therefore, claims 1-16 are cancelled.

### ***Allowable Subject Matter***

2. Claims 17-21 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: claim 17 recites, inter alia, "A micromirror for selectively modulating said beam of light, wherein micromirror mounted on said light bath in a package with a transparent window and a carrier assembly holding at least one environmental control material."

Art Unit: 2829

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations. Although Hegg et al. (U.S. 5,640,479) disclose a Fiber-optic face late stop for digital micromirror device projection system and Sampsell (U.S. 5,517,347) discloses a direct view deformable mirror device, they do not disclose the above-mentioned limitations.

### Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
